

When a “Picnic” Became an “Outing”

Our annual Spring picnic has always been a delightful part of our program. However, this year, our “picnic” became an “outing”, with a visit to the Society of Australian Genealogists’ (SAG) Library in Sydney on Thursday 10th September. 10 people attended, enjoying a very informative presentation, followed by a chance to some research of their own. The SAG Library has a surprising number of resources for Huguenot studies. Check out its library catalogue: <https://catalogue.sag.org.au/>
